

Maintenance Choice®

Save with 90-day supplies

Save money by filling your medications in 90-day supplies at a select participating pharmacy.

A change is coming to your prescription benefit plan

Your plan offers Maintenance Choice, a program which gives you the option to pick up or get delivery of 90-day supplies of the medication you take regularly (for things like diabetes, high blood pressure, asthma, etc.) at select participating pharmacies.

Here's what you need to do

1. On or after your new plan's effective date, use the Pharmacy Locator Tool to find a participating pharmacy.

2. Ask your prescriber to send a new 90-day prescription to that pharmacy for pickup or delivery.

To find a participating pharmacy, visit
Caremark.com/PharmacyLocator
or scan the code.

Make the change to avoid paying more

On or after your new plan's effective date, if you fill prescriptions for the medications you take regularly in 90-day supplies, you'll enjoy extra savings.

If you're already doing this, then you're already saving. If you're currently filling in 30-day supplies at a participating pharmacy or another pharmacy, you can make the change and start saving today.

Keep in mind you'll pay more if you continue to fill these medications at a non-participating pharmacy or choose 30-day supplies.
